RadaeePDF SDK

END USER LICENSE AGREEMENT

Software License Agreement for RadaeePDF SDK

Subject to the terms below (hereafter known as the "Agreement"), "Radaee" (the joint venture company created by Radaee Studio - a Chinese company based in Beijing - and Jugaad s.r.l. - an Italian company based in Montecchio Emilia, Via Luigi Reverberi 30/A, 42027, province of Reggio Emilia) hereby grants you a non-exclusive, non-transferable license for the use of the RadaeePDF SDK software library (hereafter known as the "Software") and its derivatives.

This EULA applies to the product RadaeePDF SDK.

---

1. GRANT OF LICENSE

1.1 Development and Internal Use

It is permitted to use the Software for development and internal purposes free of charge and without any limitation on the number of developers. For development and testing purposes across multiple environments, separate Not-For-Resale (NFR) licenses must be obtained, as detailed in Section 13.

1.2 Distribution Rights

Distribution of the Software in your applications is permitted only with a valid license.

Internal Sharing: It is permitted to share the full SDK package within your company or working team.

External Distribution: No other distribution—whether transmitted via email, physical media, website, or other electronic delivery system—is allowed without a license.

1.3 Backup Rights

It is permitted to make copies of the Software specifically for backup or archival purposes.

1.4 SDK Versions

This EULA applies to each version of the SDK (RadaeePDF Classic SDK, RadaeePDF Master SDK, formerly RadaeePDF SDK), hereafter collectively known as "THE SDK".

1.5 Unlicensed and Demo Usage

Applications using unlicensed or demo versions of THE SDK:

a) **Permitted Use:** Shall be used only for development, testing, and/or demonstration purposes.

b) **Technical Limitations:** Unlicensed versions impose limits on certain APIs and display a Standard Watermark. Removal or alteration of the watermark in unlicensed versions is strictly prohibited.

c) **Public Store Publication:** If published on public stores (e.g., Google Play, Apple App Store), the application description must explicitly state that it is a "Demo" or "Test" version using RadaeePDF technology.

d) **Recommendation:** Users are strongly advised to use the activation key included in the demo project and perform initial testing without modifying the original demonstrative package name/bundle ID to be eligible to test every functionality and API of the SDK.

e) **Commercial Distribution:** Developers can distribute, publish, and sell commercial applications only containing licensed copies of THE SDK.

1.6 License Scope

Each license allows the distribution of the Software within one (1) specific application (identified by a unique Package Name, Bundle ID, or UUID) on one (1) specific Operating System (Platform).
- Use on a second platform (e.g., porting from Android to iOS) requires a separate license.
- Use in a second application requires a separate license.

1.7 Application Distribution

Licensees can include THE SDK in their application publicly distributed through public marketplaces (such as the Apple App Store, Microsoft Store, Google Play, and others).

Restrictions:
- It is not permitted to distribute generated binaries via private repositories, storages, and/or marketplaces without an OEM-like license (see Section 1.11).
- It is not permitted to distribute resulting binaries as pre-loaded applications in devices (i.e., built-in as a system app, OEM app, ODM app, etc.) without an OEM-like license (see Section 1.11).

1.8 Self-Contained Applications

Each license is tied to a single self-contained application running on a single operating system. The RadaeePDF Classic SDK or RadaeePDF Master SDK software library, Java code, and/or activation key cannot be included in any external plugins, software modules, or printer drivers (i.e., via Android intent mechanisms).

1.9 Activation Key & Generation

The License is linked to an Activation Key derived from the application's unique identifier.

a) **Access:** Upon license purchase, licensees receive access to a restricted control panel to generate the activation key.

b) **Required Information:** The generation process requires the following unique identifiers:
- Android: Package Name
- iOS: Bundle ID
- Windows UWP: App ID

c) **Technical Implementation:** The activation key is a hexadecimal string. Validation is performed statically within the Licensee's application code. No external network validation or connectivity is required.

d) **Validity:** The key validates against the SDK version release date to enforce maintenance period restrictions (see Section 1.12).

1.10 Maintenance Period Rules

a) **Duration:** The 12-month maintenance period starts strictly on the date of license purchase.

b) **Independence:** The maintenance start date is separate from, and not related to, the date of the generation of the activation key.

c) **No Extension:** The maintenance period is neither extended nor reset by delaying the key generation.

d) **Bulk/Volume Licenses:** If multiple licenses are purchased in a single transaction (Bulk Order), the maintenance period for all such licenses commences simultaneously on the date of the purchase order. It is not possible to stagger or defer the maintenance start date for individual licenses within the same order (see Section 14 for Volume Licensing).

e) **Key Generation:** Initial key generation can occur at any time after purchase. The key remains valid indefinitely for all SDK versions released during the active maintenance period.

1.11 OEM-like License Definition and Requirements

An OEM-like license is required for any of the following distribution scenarios:

a) **Pre-installed Distribution:** Distribution of applications containing THE SDK in any of the following forms:
- As built-in/pre-installed applications on devices
- As system applications
- As original manufacturer (OEM/ODM) applications

b) **Private Channel Distribution:** Distribution through any private or restricted channels including but not limited to:
- Private marketplaces
- Enterprise distribution through App Store or Google Play
- Private websites
- Email distribution
- Cloud storage services
- Any other non-public distribution method

c) **Pricing and Eligibility Process:**
- Interested parties must submit a formal inquiry to sales@radaeepdf.com
- A sales manager will conduct a qualification interview to understand the intended use case, distribution scope, and deployment requirements
- Based on this assessment, Radaee will determine eligibility for OEM-like licensing, custom pricing structure, and specific terms and limitations
- Approved customers will receive a supplementary EULA addendum, a customized price list, and specific licensing terms tailored to their use case

Note: OEM-like licensing is subject to approval and is not automatically granted upon request.

1.12 Proper License and Version Access

A "Proper License" is defined as a valid commercial license with a legitimate activation key, properly registered to a specific application identifier.

a) **Version Access & Maintenance Logic:**
- **Access:** The Licensee has access to any/all versions of THE SDK released during their active maintenance period.
- **Technical Restriction:** The activation key technically limits execution to SDK versions released within 12 (twelve) months of the purchase date (or renewal date).
- **New Versions:** Versions released after the expiry of the maintenance period require a Maintenance Renewal (and a new activation key) to function properly.

b) **Perpetual Use of Old Versions:**
- A proper license remains valid indefinitely for any/all versions released during its maintenance period.
- Previously activated versions remain fully functional and "proper" even after the maintenance period expires.
- **No impact on existing installations:** Expiry of maintenance does not affect applications already distributed to end-users using valid SDK versions.

1.13 Maintenance Renewal

a) **Renewal:** Renewal is available via yearly subscription.

b) **Benefits:** Maintenance renewal provides a new activation key valid for the latest versions, continued access to technical support, and the right to use new features.

c) **Grace Period (Late Renewal):**
- If maintenance is not renewed by the natural expiration date, the Licensee is granted a grace period of 60 (sixty) days to renew.
- During this period, renewal is allowed without additional penalty fees.
- The renewal term will commence retroactively from the natural expiration date of the previous period, not from the date of payment (i.e., there is no gap in the maintenance timeline).

d) **Expiration of Renewal Rights:**
- If the 60-day grace period expires, the option to renew maintenance is permanently lost.
- To regain access to technical support and new SDK versions, the Licensee must purchase a new full license at the current list price.

1.14 High-Volume Maintenance Agreements

For Customers holding or intending to acquire a portfolio of fifty (50) or more licenses ("High-Volume Licensee"), Radaee offers special maintenance arrangements:

a) **Custom Maintenance Terms:** Special maintenance terms, custom scheduling, or volume agreements may be negotiated for maintenance renewals.

b) **Mandatory Consultation:** Prior to establishing custom maintenance arrangements, a commercial consultation is required to assess the portfolio size, support requirements, and maintenance structure.

c) **EULA Addendum:** The parties may execute a specific Addendum to this Agreement. Such Addendum may modify or supersede specific clauses related to Maintenance start dates, SLA targets, and renewal terms to suit the High-Volume relationship.

d) **Contact:** Please contact the Radaee Sales Department at sales@radaeepdf.com for specific arrangements.

Note: In the absence of a signed Addendum, the standard terms of this EULA, including the Maintenance Period Rules defined in Section 1.10, shall apply in full.

1.15 Redistribution Rights

THE SDK, when packaged within your binary application, may be redistributed royalty-free, as long as it is produced using a licensed version of the Software.

1.16 Source Code Usage

It is permitted to use, modify, and/or extract any part of the source code available in the original distribution package (i.e., demo projects that contain Java, Objective-C, or C# code), subject to the terms in Section 6.2.

1.17 Delivery Channels

SDK packages and updates are released directly through the official RadaeePDF website or via public repositories (e.g., GitHub). Radaee reserves the right to select the distribution channel at its sole discretion, generally prioritizing platforms that ensure widespread adoption and ease of use for Licensees.

2. OWNERSHIP

This license does not transfer any title or ownership of the Software or its documentation to the Licensee.

Copyright: The Software is owned by Radaee and is protected by copyright laws and international treaty provisions.

Proprietary Rights: Radaee retains all rights, title, and interest in the Software, including all intellectual property rights.

Modifications: You may not remove or alter any copyright, trademark, or other proprietary notices from the Software or its documentation.

3. FEES AND PAYMENT

3.1 License Fees

The Licensee must pay the license fees according to the pricing schedule effective at the time of purchase.

3.2 Taxes

All fees and pricing schedules are exclusive of any applicable taxes, duties, or levies (including VAT or sales tax). The Licensee is responsible for the payment of all such taxes arising from the purchase of the license.

4. REFUND AND ACTIVATION KEY SUBSTITUTION POLICIES

4.1 Inactive License (Pre-Key Generation) Within 25 Days

You can send a refund request to sales@radaeepdf.com. The email must state the reason for your request and the order reference number. **The entire license cost will be refunded.**

4.2 Inactive License (Pre-Key Generation) After 25 Days

Please send a refund request to sales@radaeepdf.com stating the reason for your request and the order reference number. **Refunds will amount to 85% of the license cost.**

4.3 Active License (Key Generated) for Unpublished Applications

Requests for refund must be sent to sales@radaeepdf.com and must state the reason for the request and the order reference number. You must also attach a copy of the letter in Appendix 1 printed on your official company letter-headed paper. **Refunds for licenses already tied to an activation key, regardless of when the refund request is made, will be 40% of the license cost.**

4.4 Active License Within Published Application

No refund is available.

4.5 Price Modification for Partial Refunds

If a refund request is for a partial order (i.e., multi-license purchase), the license cost will be recalculated to maintain the price of remaining licenses aligned to the actual public price list.

Example:

Original Order	Original Price	Refund Quantity	Refund Amount (no key, before 25 days)
4 Standard licenses	423 × 4 = $1,692	1 Standard license	(476 × 3) = $264 **not** 423
2 Standard licenses	476 × 2 = $952	1 Standard license	(529 × 1) = $423 **not** 476

4.6 Activation Key Change Request

If you need to change the activation key due to application package name/bundle-id/uuid modification, you need to send a signed letter on your official company letter-headed paper to sales@radaeepdf.com (please see Appendix 1).

4.7 Terms of Activation Key Change

The above procedure is available no more than 6 (six) months from the initial activation key generation.

4.8 Limit of Activation Key Change

You can only request to change the activation key one (1) time per license.

4.9 Discretionary Approval

Requests for a change to activation keys will be evaluated at the sole discretion of Radaee. Radaee reserves the right to deny the request if there is evidence of abuse, concurrent usage of both keys, or if the request is outside the permitted time window.

5. TECHNICAL SUPPORT (SLA)

Radaee provides technical support to the Licensee under the following Service Level Agreement (SLA):

5.1 Support Channels

Support is provided via email and the official Radaee issue tracking system.

5.2 Response Times

Radaee commits to the following response times for valid support requests:

- **Critical Issues:** Within 2 (two) business days (Monday to Friday, excluding public holidays).
- **General Inquiries:** Within 4 (four) business days (Monday to Friday, excluding public holidays).
- **Resolution Time:** All issues are handled on a "best effort" basis. There is no guaranteed fixed time for the final resolution of bugs or implementation of features.

Note: "Response Time" refers to the initial acknowledgment and preliminary assessment.

5.3 Support Scope

Standard Support (included with Maintenance) covers:
- Bugs and defects in the unmodified SDK
- Guidance on standard API usage and implementation

Paid Services (Excluded from Standard Support, available upon request with commercial quotation):
- Debugging of the Licensee's own application code
- Implementation of custom features not present in the SDK
- Issues arising from modifications made to the SDK source code by the Licensee
- Requests for specific modifications to the SDK core functions

---

6. COPYRIGHT AND RESTRICTIONS

6.1 Reverse Engineering

You may not reverse engineer, decompile, disassemble, or attempt to derive the source code of the Software, except to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.

6.2 Modification and Derivative Works

a) **Framework Source Code (Apache 2.0):** The framework source code (including Java, Objective-C, Swift, and C# wrappers and UI components) is released under the Apache License, Version 2.0. The Licensee is free to modify this code to suit their needs.

b) **Liability Disclaimer:** Radaee explicitly declines any responsibility for anomalies, errors, instability, or security issues arising from modifications made by the Licensee to the source code.

c) **Support Exclusion:** Technical support covers strictly the original, unmodified SDK code. Radaee is not obligated to support or debug modified versions of the framework.

d) **Native Core (C++):** You may not modify, adapt, or create derivative works based on the core native C++ libraries (.so, .dll, .a, .framework) without explicit written permission from Radaee.

6.3 Separability

The Software is licensed as a single product. Its component parts may not be separated for use on more than one computer or application.

6.4 Rental and Leasing

You may not rent, lease, or lend the Software to third parties.

7. TERM AND TERMINATION

7.1 Term

This Agreement is effective until terminated.

7.2 Termination by Licensee

You may terminate this Agreement at any time by destroying the Software and all copies thereof.

7.3 Termination by Licensor

This Agreement will terminate automatically and immediately without notice from Radaee if you fail to comply with any provision of this Agreement.

Upon termination, you must destroy the Software and all copies thereof.

Grounds for Termination include but are not limited to:
- Failure to destroy all copies of the Software upon request
- Failure to settle invoices issued
- Unauthorized sharing of a license between applications
- Resale of product license
- Concurrent use of old and new activation keys

Radaee reserves the right to take legal action for damages in the event of termination due to the above causes.

8. LIMITED WARRANTY AND DISCLAIMER

8.1 "As Is" Warranty

The Software is provided "AS IS", without warranty of any kind, express or implied, including but not limited to the warranties of merchantability, fitness for a particular purpose, and non-infringement.

8.2 Limitation of Liability

In no event shall Radaee (Radaee Studio or Jugaad S.r.l.) be liable for any claim, damages, or other liability, whether in an action of contract, tort, or otherwise, arising from, out of, or in connection with the Software or the use or other dealings in the Software.

8.3 Maximum Liability

In any case, Radaee's entire liability under any provision of this Agreement shall be limited to the amount actually paid by you for the Software license.

---

9. GOVERNING LAW AND GENERAL PROVISIONS

9.1 Governing Law

This Agreement shall be governed by and construed in accordance with the laws of Italy. Any disputes arising from this Agreement shall be subject to the exclusive jurisdiction of the courts of Reggio Emilia, Italy.

9.2 Export Control

The Licensee agrees to comply with all applicable export laws and regulations. The Software may not be exported or re-exported to certain countries or to persons or entities prohibited from receiving exports from Italy, the European Union, or China.

9.3 Assignment

The Licensee may not assign or otherwise transfer this Agreement or any of its rights or obligations hereunder, without the prior written consent of Radaee. Any attempt to assign this Agreement without such consent shall be null and void.

9.4 Waiver

No failure or delay by Radaee in exercising any right, power, or remedy under this Agreement shall

operate as a waiver thereof, nor shall any single or partial exercise of any such right, power, or remedy preclude any other or further exercise thereof.

9.5 Entire Agreement

This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior or contemporaneous understandings, agreements, negotiations, representations and warranties, and communications, both written and oral.

9.6 Severability

If any provision of this Agreement is held to be invalid, illegal, or unenforceable, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired.

9.7 Force Majeure

Radaee shall not be liable for any failure to perform its obligations under this Agreement if such failure results from circumstances beyond its reasonable control, including but not limited to acts of God, war, riot, embargoes, acts of civil or military authorities, fire, floods, accidents, strikes, or shortages of transportation, facilities, fuel, energy, labor, or materials.

9.8 Privacy and GDPR Compliance

Radaee acts as a data controller for the commercial data related to the Licensee (e.g., billing info, email). The Software itself (the SDK) operates offline within the Licensee's application and does not automatically collect or transmit end-user personal data to Radaee. The Licensee is solely responsible for ensuring that their application complies with GDPR and other applicable privacy laws regarding end-user data.

9.9 Addresses and Complaints

Any requests or complaints should be addressed to Jugaad s.r.l.:
- **Email:** radaee@jugaad.digital
- **Postal Address:** Via L. Reverberi 30/A - 42027 - Montecchio Emilia (RE) - Italy

10. SDK COMPONENTS AND CYBER RESILIENCE

10.1 Software Components

The term "Software" or "SDK" typically refers to and includes the following components provided in the distribution package:
- **Native Core:** Compiled shared libraries (e.g., .so for Android, .dll for Windows, .framework for iOS) containing the proprietary PDF rendering engine (written in C++).

- **Wrappers & UI:** Source code files in Java/Kotlin (Android), Objective-C/Swift (iOS), or C# (Windows) that facilitate the interaction between the Native Core and the application layer.
- **Documentation:** API references, integration guides, and other technical documents.
- **Demo Projects:** Example application source code demonstrating SDK usage.

10.2 Cyber Resilience Act (CRA) Compliance & SBOM

In compliance with the Cyber Resilience Act (CRA) and modern security standards, Radaee is committed to software supply chain transparency.
- **SBOM Availability:** Upon specific request by the Licensee, Radaee can provide a Software Bill of Materials (SBOM) in industry-standard formats (e.g., SPDX or CycloneDX).
- **Vulnerability Management:** The SBOM details the inventory of software components and dependencies to facilitate vulnerability management and risk assessment by the Licensee.

11. THIRD-PARTY LICENSES

The Software utilizes third-party libraries and open-source components. The use of such third-party components is subject to their respective license terms, which are separate from this Agreement.

SBOM Reference: The full list of dependencies and their specific version numbers is detailed in the Software Bill of Materials (SBOM) provided with the distribution package. Licensees are required to consult the SBOM for the most up-to-date dependency information.

Acknowledgment: A list of third-party attributions and licenses is included in Appendix 2. The Licensee agrees to comply with any applicable attribution requirements in their own application.

12. SERVER INSTALLATION

Installation of applications, command line executables, and/or services on a workstation or server requires a "proper license" (see Section 1.12).
- The server license does not restrict concurrent processes or applications invoking the runtime of THE SDK.
- Each workstation or server is identified by a unique ID generated by the operating system during its first run.

13. NOT-FOR-RESALE (NFR) LICENSES

13.1 Definition

A Not-For-Resale (NFR) license is a complimentary or low-cost license granted specifically for testing, staging, training, or demonstration purposes.

13.2 Request and Eligibility

- NFR licenses must be requested via the trouble ticket system.
- Requests must be directed to the Jugaad sales team.
- Each request is evaluated individually and on its own merits.

13.3 Pricing

NFR licenses are priced at 15% of the standard license cost, based on the public price list (1-6 licenses range). Reference pricing is available at www.radaeepdf.com.

13.4 Usage Restrictions

- **Non-Production:** NFR licenses must strictly not be used in a production environment or in an application distributed to the general public.
- **Non-Commercial:** Applications using an NFR license cannot be sold, monetized, or used for commercial gain.

13.5 Validity

NFR licenses are typically valid for a fixed period (e.g., 6 or 12 months) and do not automatically renew. Radaee reserves the right to revoke an NFR license at any time if misuse is detected.

---

14. VOLUME LICENSING

14.1 Standard Volume Pricing

The public price list covers the purchases of 1-6 licenses. Pricing is available on the official website at www.radaeepdf.com.

14.2 Eligibility

The Volume Licensing program is available for Licensees purchasing a significant number of licenses (typically 10 or more) in a single order or over a contracted period.

14.3 Benefits

- **Unified Management:** Ability to manage multiple activation keys under a single account or master agreement.
- **Co-Terminus Maintenance:** As defined in Section 1.10, maintenance for all licenses in a bulk order is aligned to a single start/end date to simplify renewal.
- **Discount Structure:** Volume discounts may apply based on the quantity tiers defined in the commercial quote.

14.4 Custom Volume Arrangements

Larger volume requests require direct sales team contact. Custom pricing is available for:
- Bulk purchases (more than 6 licenses)
- Enterprise Agreements
- Special deployment scenarios

15. UPDATES TO TERMS

Updates to usage terms, limitations, and price lists are:
- Published promptly on the official website
- Incorporated into subsequent EULA versions
- Applied to license renewals and new purchases
- Not retroactively applied to existing licenses
- Effective upon next maintenance renewal for existing customers

APPENDIX 1: Activation Key Change Request Template

[TO BE PRINTED ON LICENSEE COMPANY LETTERHEAD]

Subject: Activation Key Change Request

To: sales@radaeepdf.com

Date: [Current Date]

Order Reference Number: [Insert original order reference number]

---

1. Current Application Details (OLD)

- **Package Name / Bundle ID:** [Insert OLD identifier]
- **Platform:** [Android / iOS / Windows UWP]
- **Activation Key Generation Date:** [Insert Date]

2. Requested Application Details (NEW)

- **New Package Name / Bundle ID:** [Insert NEW identifier]

3. Reason for Change

Please provide a detailed explanation for the change request:

[Insert explanation here]

4. Declaration of Compliance

I, [Insert Name], representing [Company Name], hereby confirm that:

1. We are the current legal licensee of the RadaeePDF SDK.
2. The activation key for the OLD package name is not, and will not be, included in any published application moving forward.
3. We will immediately cease use of the old activation key upon receipt of the new key.
4. We understand that unauthorized use of the old activation key constitutes a material breach of the EULA and is subject to legal action.
5. We acknowledge that this is our single permitted key change as per the EULA terms (Section 4.8).

Yours Sincerely,

Signature: _____

Name: _____

Title: _____
